

Introducing

# The World's 1<sup>st</sup> PIR + HFD\* Dual-Tech Wall Switch Sensor

## RELIABILITY

- **Vandal Resistant Lens**

Specialized lens prevents vandalism while keeping maximum detection

- **Hybrid-Switching Control**

Provide superior service life for controlling loads with high inrush current

## AESTHETICS

- **Appealing Aesthetics Profile**

Low profile appealing aesthetics design without grid openings on the front

- **Screwless Snap-in Wallplate**

Contemporary wallplate provides interior decorator pleasing appearance

## PERFORMANCE

- **Superior Sensing Capability**

180° Field of View with second-to-none minor motion sensing capability

- **Easy and Accurate Settings**

Accu-Set digital potentiometers provide fast, easy and accurate settings

## WALLSENZR

PIR+HFD

PIR

## SUSTAINABILITY

- **Ambient Lighting Override**

Photocell sensor integrated to inhibit turning on the light under daylight

- **Energy Codes Compliance**

Every WALLSENZR can be programmed as occupancy or vacancy sensor

Over 30 Years in sensor business

Energy efficient building control solutions

Complete line of Wall & Ceiling sensors

Passive Infrared (PIR), High Frequency Doppler (HFD) & Dual Technology (DT) capabilities

Extremely price competitive

US Headquarters and stock at Brea CA
